

THE “STAR” EXERCISE

Materials needed: Mirror, page with “star”, pen/pencil, cover page

Instructions: Team up with a partner and one of you take the pen/pencil and the “star” page, while the other partner takes the mirror and cover page. The objective is to draw a continuous line between the larger star and the small star, continuing within the space until you reach the point where you began. The partner holding the mirror and the cover page holds the cover page over the “star” page in a manner such that the partner that is drawing can only see the “star” page in the mirror.
